BLS CHURCHYARD MAPPING CARD

LOCALITY							
VICE COUNTY	V. C. NO.	DIOCESE				GRID REFERENCE	
RECORDER	TOTAL CORT.	TOTAL LIGN.	TOTAL TERR.	TOTAL SAX.	TOTAL LICHENIC.	TOTAL ON CHURCH	TOTAL SPECIES
DATE							
ADDITIONAL SPECIES (including Lichenicolous Fungi) AND SPECIES NOTES:							KEY GUIDELINES: Please always follow the same procedures. Put · in C column if species present on the church and ✓ in the Y column if species present in the yard. If species is not saxicolous always indicate substrate (cort., lig., terr., etc.). Only put sx if the sp. also occurs on non-saxicolous substrates.

SITE NOTES (Age, Geology, Setting, Habitat details):		It is helpful to indicate main stone types (lm, ma, sd, gr etc.); aspect (N→, S→ etc.) and inclination (E↖, ↑ etc.), especially for the more noteworthy species. More detailed guidelines are available from the Churchyard Coordinators.	
NATURAL AREA (If known):	ALT.		
CONSERVATION RECOMMENDATIONS:
